Philadelphia Mail -

I have in my possession three (3) Ancient - pieces, of coins, one of which is said to be about three thousand (3,000) years old, & the other two - two thousand (2,000) years old and I wish to know if you purchase such, and what would you be willing to pay for each.

They are of the finest copper so called.

Also have a solid gold Hammered Ring which was made in China many years ago.

Weight - ~~is~~ 5 Dwt
with Chinese Inscription
Build a curiosity -

Do you ever purchase anything of this kind as a relic not only for old gold - as it is a valuable keepsake if one likes such things. I need the rails more than the ring this is why I am willing to part with it if I can get a fair price for it.

Please let me know how much you would pay for it, if you care to buy, if not, can you refer me to persons who would like it. Yours Very Respectfully
Mrs. E. S. Dyer.
